

## CARMANGAY TO SEEK IRRIGATION

Meeting Hear of Favorable  
Prospect for water

At a meeting of the Irrigation Association held last week a report was given by D. H. Russell and Dr. A. F. Wilson on their attendance at McLeod at which officials of the P. F. R. A. were present. Valuable information was secured and passed on to the Carmangay meeting. Carmangay is being kept in mind by the officials it was asserted.

All efforts are being made to rush the petition which will support the Ontario River. Their work to secure irrigation for the district. Water would come through Lethbridge northern by building a dam on the Castle River.

## TELEVISION NOW ESTABLISHED PROGRAM Editor Privileged to See Program go on the Air

One of the many interesting sights witnessed by the Chronicle editor during his trip to New York was the broadcasting of programs over the National Broadcasting Company, R. C. A. building Radio City, especially the Television program.

Through the courtesy of the publicity department of N. B. C. the local editor with his companion, Mr. McPherson of Bridge water, Nova Scotia, were given a tour through the entire building which has become world famous for its broadcasting developments. Studio's were visited where programs over the red network were in progress while various details of control and management of programs were explained.

Possibly of greater interest still was the television department where it was explained regular programs are being broadcast over the entire city of New York and a radius of 20 miles or more depending on signal factors entering into radio reception. In addition to having the intricate detail of sending and receiving of picture radio or television, explained he editors were privileged to go before the camera and be interviewed by the announcer. Detail in the picture is not only accurate but clear, the lines in the face of our computer, were true. We were witnessing the latest development in the industry which will stage the picture theatre, live stage and every phase of our life.

The transmitting antenna for this particular station is atop the Empire State building, 1300 feet above 5th ave. also situated. Sale for television sets are of course increasing and the price ranges from \$100 to \$1000 depending upon the size of image and other factors as affect an ordinary radio.

During the past two months science has perfected a wire which will carry the programs similar to the network for the sound radio, and in this way it will be possible within a year or so to have New York connected with other centres indeed spread a network over the entire country, as in the case of the sound transmission. Previously the cable required to carry the sound and light program cost something over a dollar a foot, not to speak of the cost of laying and maintaining.

## Young Lady is Mourned

Miss Katherine Cowell, Was  
Favorite In Local Bank

There was genuine sorrow here last week when it was learned that Miss Katherine Cowell, a former resident here and employed with the Canadian Bank of Commerce had been found dead in the Bank at Lethbridge.

During her residence here Miss Cowell was very popular and was a favorite in the local Bank.

## CAN. WHEAT BOARD

In this issue we are printing an adv. of the Canadian Wheat Board respecting the 5,000 bus. limit on deliveries to the Board. Every farmer and land owner should read these instructions carefully so that all risks of offending the Act will be avoided.

It will be noted that every person who sells wheat to the Board in excess of 5,000 and in breach of the regulations in the adv. on page 4 is guilty of an offence and on conviction liable to fine or imprisonment. It is earnestly hoped all will co-operate. Inspectors checking deliveries at the elevators and farms will assist in the administration of the Act.

## PAY LOCAL ACCOUNTS

Again The Chronicle makes a plea to farmers and others to remember their local creditors. One day this week there were 8 representatives of collection houses in Champion and these experienced gentlemen did a good job. We have no thought that all just debts should not be paid but we ask that you remember your local friends, who trusted you and gave the goods or parts.

High pressure collectors do get results sometimes to the extent that there is not enough left to pay local bills. This is what we do not want to occur. Your local business man is depending on prompt payment of accounts. Do not fail him,

## War May Come Need for Calm Thinking and Worthwhile Action.

As we go to press news gives indication that a crisis between the forces of democracy and war may result. Even yet there is time for a peaceful solution. Britain and France are fully prepared and are mobilized.

In Canada our Government has the matter well in hand. Militia will be called to preserve order and protect property. All details have been worked out.

However citizens can express their loyalty best by calm thinking and refraining from talk as to what should be done if war comes. Premier Klug will call Parliament and it will be decided what participation Canada will take to be most effective.

## 'JOCK'S WAGGIN' TONGUE

Vol. 3 Thurs. Aug. 24 1939 No. 20  
Jock McIntyre, Editor

We hope that with the crop moving off at the rate that it is, that the local merchants will be able to report 50 percent of collections made. The local merchants are not big shots in the financial field and ask only the same consideration that you a mere given when you needed the goods you owe them for. They can't afford to hire collectors to go out in the country, so how about a little co-operation from you? "Pay your local merchant now" would be a good slogan to adopt.

The Blue line grease gun is a big gun capable of 10000 lbs. pressure for less money.

Louie Warren and Mrs. Van Bosen are victims of wheat field card games on some one part. Let's all be doubly careful of fire as it means so much just now.

Wm. Penn and North Star oils and greases are "Still the best".

Among the old timers who are around the district visiting and looking after their interests this week we find Mrs. Frank Haddley, Mrs. Win Gerscho, Geo. Alcock, Henry Lilly, Jim Burnett, Ruby Jean and Fred Alder. They are all looking fine and feeling fine as they say and glad to be back at least for a while.

Come in and let us tell you about the Red Jacket water softener. It will save its price in soap and lye in no time.

Oscar Stettin seems to have "busted right into the news, Calgary Herald Lethbridge Herald, Alberta and C. B. C. having placed him and his 40 bus crop in the limelight. Since no hero should be without honor at home, we have only to say "Greetings Oscar".

We still have a few of the Palmolive and Shick razor sets left. A complete shaving kit for only 40c.

## Line Elevators Do More Than Handle Your Grain

Line Elevators are continually guarding the interests of their farmer customers.

The Public Relations Department of the North West Grain Dealer's Association under the direction of Mr. L. W. Brockington, K. O., follows closely the actions and proceedings of all Governments and commissions which may be dealing with matters relating to grain. Every effort is made before these bodies to protect and promote the interests of our farmer customers.

Some of the constructive work undertaken by Line Elevators in recent months follows:

Took an active part in the work of the Braeken Committee in urging upon the Dominion Government the continuation of the Canadian Wheat Board and 80 cent wheat.

Urged the Dominion Government to establish a Western Research Laboratory of the National Research Council. This laboratory would seek new uses and expanded markets for wheat and farm products. This proposal was put forward following a survey which we made of the progress in research into new uses for farm products in the United States.

Financed seed and crop improvement work.

Financed research extending over a period of several years into weed control and eradication.

Our material financial support makes possible the tour of the Canadian Forestry Association's Tree Planting Car through out the Prairie Provinces.

Continually advocating free international exchange of goods in order to regain and expand Canada's exports of wheat.

Continually endeavoring to impress on Governments and public bodies the basic price at which the farmer sells his products compared with the price he pays for manufactured farm requirements which he must buy.

Proposed that Co-operative associations, as members should accept representation on the governing body of the Winnipeg Grain Exchange and urged appointment of a supervisor for the Grain Exchange.

You ask, "Why does my local Line Elevator do these things?"

We reply: Only through a prosperous and happy agricultural community can we prosper. Our interests are identical despite what is said by propagandists.

Line Elevators Association

Cancellation—We find that our subscribers prefer not to have their subscriptions interrupted in case they fail to remit before expiration. Subscriptions will not be carried in arrears over six months, but we presume the subscriber wishes the paper continued unless cancelled.

## - Editorial -

### BACK HOME

There is an old but true saying "There is no place like home" and this was the feeling of the editor as he arrived back in Champion last week after enjoying one of the most profitable vacations possible.

Covering 5600 miles by railway, not to speak of the travel by motor car, meeting outstanding men in public life virtually "drinking in" information secured at research lectures, and enjoying the many other features of the annual meeting of editors of Canada there is a joy to return to your desk and again take up a task which you enjoy.

Some salient facts come before the editors mind as he returns to work. First we live in a wonderful age one which none can appreciate the gifts which are our common right and none can visualize the possibilities for the future, we of course refer to the enumerable inventions which are being introduced to make living easier. But secondly these very improvements are making life more difficult to manage. Thirdly the governing of our great Dominion is a task which can only be accomplished by our ablest statesmen with the full co-operation of every section or province of Confederation.

Touching only on the last; after talks with editors from the extreme east and west we are more than ever convinced that only through the spirit, which gave birth to Confederation, compromise, can Canada maintain its high ideals of democracy. Even one province as one in a household, causing dissension can stop the wheels of good government and prevent the bringing in of new legislation. As each member of the family joins with the other in developing a happy home, so must the people's of the different provinces work hand in hand to achieve a truly Canadian nation worthy of the heritage given to us by our Fathers of Confederation.

### AUGUST THE TIME OF HARVEST

The Bible quotation "there shall be seed time and harvest" has again proven true and reports of yields are encouraging.

Long ago a poet apostrophized "you sun-burnt sickle man of August weary" which indicates that even among famous verse writers this is recognized as a harvest month. On August's behaviour depends largely how the granaries and roothouses will be filled against mankind's winter needs.

This is the harvest month, but there will not be any sicklemen in the field for now we have the combine. The only thing that remains unchanged is the period of harvest depending upon the weather.

After insuring an adequate supply of food and being altogether a delightful month pointing the way to fall what more can be expected of August?

### JOBS BY THOUSANDS.

Hon. T.A. Crerar, minister of Mines, doubtless had much satisfaction in telling his Manitoba constituents that 35,000 young men received direct employment during the last four years by development of the mining industry. What was accomplished through opening up other natural resources was not stated but it is a matter for consideration for young men.

## CANCER: A NEW APPROACH

For over one hundred years we have recognized that the anatomical and physiological unit of cancer is the cell. A tissue is a collection of cells, with a specific function, for example, bone, skin, muscle. Cells comprising tissues have inherited special duties and adapt themselves to attend to these. Now in addition to the ability of performing their duties cells are endowed with a property common to them all namely the capacity of reproduction, a phenomenon responsible for growth, healing and repair, thereby assuring at all times sufficient active cells to continue those specific functions for which they were intended.

The balance of power between growth and function is maintained by a delicate coordination of the glands of internal secretion including the thyroid, the ovaries, the testes, a gland at the base of the brain called the pituitary, as well as several others. We believe that as long as these cellular activities are not upset by—A—a disturbance of these internal regulators or B forces exerted without, cancer will not develop.

Look upon cancer as a tissue which in contrast to the well behaved orderly cells of a normal tissue, utilize their entire supply of energy in reproduction and only in reproduction. Its cells serve no useful purpose. They merely multiply and grow. At first these cancer cells are confined to their sites of origin and may remain thus localized for months, the time mark you when all cancer is curable, but as weeks and months go by a few cells may be carried away by the blood or lymph currents to distant parts.

**-THE WOMAN WHO KNOWS ABOUT FISH**

**CREAMED FISH**  
Cover fish with water, bring to boiling point and simmer for a few minutes until fish is cooked — use top of stove or oven. Drain fish, place on hot platter with small pieces of butter on top. Return to oven to heat. Just before serving add 1/2 cup cream or whole milk heated. Do not let fish remain too long or cream may curdle. Garnish with parsley.

She has solved the daily problem... because FISH offers a welcome and wholesome change at mealtimes, something the whole family will like. There are over 60 different kinds of Canadian Food Fish and Shellfish from which you can choose, either fresh, frozen, smoked, dried, canned or pickled. All of them can be served in an infinite variety of recipes. And... one of the good things about FISH is that it is nourishing, and so easy to prepare! Serve Fish to your family often.

**The Best Variety?**  
Many farmers are about to harvest fields of several of the new varieties. It would be a valuable contribution to agricultural knowledge if such farmers would make a careful note of the bushels to the acre they thresh and other details of the different varieties they grow. This information then should be sent either to the nearest University or Dominion Experimental Farm, or handed to the local Elevator Agent.

## THE CANADIAN WHEAT BOARD

### 5,000 Bushel Limit on Deliveries of 1939 Wheat

## REGULATIONS

1. No person shall sell to the Board wheat which was not grown on the farm or farms which such person owns or operates, or to the product of which such person is otherwise entitled.

2. Every person who sells wheat to the Board in breach of the foregoing regulation shall be guilty of an offence and punishable on summary conviction by a fine not exceeding one hundred dollars or by imprisonment for a period not exceeding one month.

PROVISIONS FOR ESTABLISHING THE SYSTEM OF DEALING IN WHEAT UNDER THE CANADIAN WHEAT BOARD ACT FOR THE CROP YEAR 1939-40, MORE PARTICULARLY WITH REFERENCE TO THE 5,000 BUSHEL LIMIT.

## RULES AND INSTRUCTIONS

The Canadian Wheat Board will buy 1939 wheat during the crop year 1939-40 on the following basis:

1. The sale of 5,000 bushels at the fixed price is the limit of benefit which any grower may derive from the Canadian Wheat Board. In addition to buying from the grower, the Board may of course buy wheat from landlords, vendors, mortgagees, or others entitled by contract or operation of law to wheat grown by someone else. If any person from whom the Board is entitled to buy wheat sells less than 5,000 bushels of wheat to the Board, wheat grown on the same farm or group of farms operated as a unit may be purchased by the Board from any other person from whom the Board is entitled to purchase wheat, but the Board will not buy more than 5,000 bushels of wheat grown on any one farm or group of farms operated as a unit. Subject to such limitation the Board may buy more than 5,000 bushels from a landlord, vendor, mortgagee or other person so entitled.

ILLUSTRATION A—The Board may purchase from each grower-producer not more than 5,000 bushels of wheat grown by him in the crop year.

ILLUSTRATION B—Where a grower-producer sells 5,000 bushels of wheat grown on one farm or group of farms operated as a unit, the Board will not buy from any landlord, vendor, mortgagee or other person entitled as aforesaid any further wheat produced on such farm or group of farms.

ILLUSTRATION C—Where there is a mortgage on the farm and the owner-grower sells to the Board 3,000 bushels of wheat grown on that farm, then the mortgagee can sell to the Board only 2,000 bushels of wheat grown on that farm.

ILLUSTRATION D—Where in such circumstances there is a landlord or a vendor, as well as a mortgagee, the total sales of the landlord or vendor and mortgagee can only be 2,000 bushels.

ILLUSTRATION E—Where a mortgagee receives 2,000 bushels of wheat grown on each of 10 farms, and in each case the owner-grower sells 3,000 bushels or less to the Board, the Board may buy the whole 20,000 bushels from such mortgagee.

ILLUSTRATION F—Where land is leased, the tenant-grower and the landlord will be treated in the same manner, respectively, as the owner-grower and mortgagee in the above illustrations.

ILLUSTRATION G—Employees and dependents are not grower-producers; and they cannot sell wheat to the Board themselves or through anybody else, unless a grower hires employees by a contract based on crop shares instead of money wages, in which case grower and employee respectively will be treated in the same manner as owner-grower and mortgagee in illustrations above.

ILLUSTRATION H—If two farmers actively farm in partnership and each is entitled to a share of the crop and neither is a dependent or employee of the other, each is a producer of his share of the crop and will be treated in the same manner as a grower-producer in illustrations above.

2. Difficult cases may arise in applying the 5,000 bushel limit on purchases of wheat in certain cases, such as where one man owns a number of farms which are operated by relatives or dependents, or where a number of persons operate farms under an arrangement such that the wheat they grow is sold by a community organization. In such cases the Board will have to exercise discretion in the light of the general principles illustrated above.

Questions have been raised regarding the right of an owner-grower and mortgagee under item (c) in clause 1 of the Rules and Instructions above. This, of course, is merely an illustration like all the others and the amounts mentioned are by no means binding in individual cases.

Regarding priority between themselves, of grower, landlord, vendor, mortgagee and other persons entitled to wheat, the Board cannot concern itself with the rights of these various parties between themselves. They must make their own arrangements. No doubt in some instances at any rate the relationship will be governed by the terms of the lease, mortgage or other agreement between them.

Further enquiries should be directed to

THE CANADIAN WHEAT BOARD  
423 MAIN STREET WINNIPEG, MANITOBA

## CARD OF THANKS

Mrs. Ed. Latiff wishes to thank the Doctors and nurses of the Carmangay Hospital for their kindness and attention during her recent illness and also all friends for the beautiful flowers and other kindnesses.

FOR SALE Beatty Washer  
Party moved away. Can be bought for small balance owing. Box 10, THE CHRONICLE.

## MAIN STREET

Champion welcomes Mr and Mrs. O. Thomas who moved here this week. School starts Sept. 5th.

Miss Schultz was a visitor here on Friday making arrangements to move into the small teacherage.

Mrs. Carlson entertained the Amity Club last week. Tea was served and a delightful afternoon enjoyed.

The United Church Ladies Aid will meet at the home of Mrs. Trewsdale on Thursday Aug. 31. Cars will be at the Church at 2:30.

K. Roy McLean, Optometrist and Optician, of Calgary, will make a special trip to the Drug Store in Champion Wednesday morning, August 30, up to 12:30 P. M.

Mrs. A. L. Tuisku and daughters Irja and Miriam have returned from a trip to Boston, Concord and New York. At New York they were received at the World Fair by G. Palohimo, trade commissioner for Finland who escorted them through the many attractions at the Fair. In New York they were the guests of Laurie Tuisku.

Howard Smith Jr of Falum is visiting his father H. E. Smith.

Miss Phyllis Ashmore spent last week at Milk River, as guest of the St. Peter family.

Miss Frances Miller was a guest of Mr and Mrs Chas Lucia at Lethbridge for a week.

Cut out the coupon in the Fish adv. page 2 and show your interest in the welfare of your cousins in other parts of Canada. No stamp is necessary on the letters to the department.

H. E. Smith was a visitor at Falum and other northern points last week.

Mrs. Mary Johnson, Mrs. Art Anderson and Mrs. Scott Clarke of Calgary were visitors here.

The VanBeinson Mines wish to thank all those who assisted them during their recent fire.

H. Harris was a business visitor in Calgary this week.

Jas. McNaughton, sec. of Carmangay has returned from a motor trip to Manitoba. He confirms the statement that crop conditions here are better than in other sections of the West.

Miss Edith Russel of Saskatoon visited with her sister Mrs. Clifford Miller over the week end.
